Dear Ugo Oparadike,

OFFER OF EMPLOYMENT

We are pleased to offer you the position of Marketing and Business Development manager at Degen Technologies Inc. After careful consideration of your qualifications and experience, we believe that you would be a valuable addition to our team.

Your employment will start on 5th of April, 2023, with a monthly payment of \$1200 in axlUSDC on Osmosis on the first of the month, starting 5/1/2023. With a one time sign on bonus of \$300 axlUSDC on Osmosis. This will be revised upwards when we launch the L1 chain and start generating revenue.

You will also be eligible for 1% of the total token supply at airdrop time. Token grants will be distributed over four periods: 6/30/2023, 9/30/2023, 12/31/2023, and 3/31/2024, with each tranche locked/vested for one year. In addition, for each milestone achieved, an extra bonus of 0.5% of the total token supply will be granted at the nearest quarter-end date.

The milestones are revenue generating AUM in USD of \$25 million, \$50 million, \$75 million and \$100 million. Upon Yieldmos reaching one of these tranches an additional 0.5% (half of a percent) of total supply at airdrop time would be granted with a vesting period of 0 to 12 months, these would be added to whatever the longest tranche of vesting time is left at the time. Each milestone can only receive a grant of extra tokens only once.

For the purposes of this agreement, total supply refers to the total supply at airdrop time, which will most likely be 100 (one hundred) million tokens that will most likely trade under the symbol of \$TPRL. It is understood that since total supply will not have a cap, it will grow over time as new tokens are minted for inflation, transaction fees and other purposes. As part of your employment with Yieldmos you are being offered a portion of the total supply of the token.
